Micro Update

“Micro are pleased to announce the website for the SDD™ program is now operational. The SDD™ section of the website is password protected. For access contact info@micro.ie.

Going forward we expect to be adding to our offering with the provision of single use sampling valves. These will come on line in the near future. All our single use SDD assemblies are fabricated in house in ISO 7 certified clean rooms and can be certified gamma irradiated 25-40 kGy or alternatively Sterile ”

Ralph Fitzsimons, sales Manager
Micro Hydraulics Ltd.
